

NOTIFICATION OF AQUATIC TREATMENT LAKE SHIRLEY

Areas of Lake Shirley will be chemically treated to control invasive and nuisance aquatic vegetation on Wednesday, July 17, 2024. The USEPA/MA registered aquatic herbicides to be used are Tribune (diquat), Flumigard SC (flumioxazin) and Nautique (copper). The entire lake will be closed to all water uses (including swimming, boating and fishing) on the day of treatment only. Furthermore, following treatment, water from the lake cannot be used for livestock watering until July 19th, drinking/cooking until July 21st and irrigation until July 23rd.

The work is being performed for the Lake Shirley Improvement Corporation, pursuant to a permit (license) issued by MA DEP, Office of Watershed Management and the Lunenburg and Shirley Conservation Commissions. The treatment is being performed under contract with SOLitude Lake Management of Shrewsbury, MA - (508) 865-1000
